What is FMC?

Mission Statement

“We aim to educate, organize and mobilize the low-income and working-class families of the Filipino community in Southern California and address the issues and concerns that we face in our daily lives.”
Our Project

Revamp/redesign the website to include several new features:

- Clean and Modern Layout
- User Engagement
- Easy to use: Translation, Mobile Friendly
- Calendar of Events
- Newsletter Sign-up
- Donations
Development Process

Our development process was broken up into 6 steps

- Gathering requirements
- Learning new technology
- Refining requirements
- Design
- Implementation
- Making changes/fixing bugs
Gathering Requirements

- How do we know what to create?
- Knowing the right questions to ask
- Communicating with Nikole
  - Meeting in person with the team
  - E-mails
Learning new technology

● We knew what we needed to do, but we needed to know HOW to do it
  ○ WordPress
  ○ PHP
  ○ HTML/CSS
  ○ Github, localhost, subdomain

● Resources
  ○ Code Academy, books
Refining requirements

- Once we learned more about what we could do, we were able to go back and modify requirements
- What if requirement is not possible?
  - Time, experience, manpower
- Requirement is good, but we could do even more!
Site Map

- This is how we designed our website’s menu to look like
Implementation
Making changes/fixing bugs

- Made changes to the implementation of the site map
  - Added more menu items
- No bugs were encountered
Challenges we faced?

- Finding the right plugin to do the task that we need
- Changing the CSS for the theme that was chosen
- Making sure that the website met the expectation of the stakeholder
- Scheduling time to meet up with each other
Final Product

- A new and improved website!
- Key features:
  - Dynamic slider
  - Social media incorporated
  - Calendar of events
  - Google Translate
Easy Navigation

- One click to get anywhere
  - Who Are we?
  - News
  - Campaigns
  - Programs
  - Get involved
  - Resources
  - Support US
Last but not least!
Final words...

Any regrets?
