

Individual Assignment: Reflective Essay

As a wrap-up of this course, I would like to ask each of you to write a short reflective essay of 800-1000 words addressing the following thoughts in a narrative way (no bullet lists, please).

- **Content:** What do you think of the content of the course? Did you learn a lot or rather little new things? Do you think the knowledge will be useful for you in the future? If so, how and where could that be?
- **Instruction:** What do you think of the way this course was taught? Did you enjoy the team project environment or would you have preferred a larger percentage of individual work? Did your team work well together or where did you have challenges? Would you have wanted more lectures in relation to the group working time?
- **Fit:** How does this course fit into the overall program that you study? Is it a good fit and enhancement of the program or a rather disconnected element?
- **Take-aways:** What are the skills you acquired in this course? What are your take-aways? What are your lessons learned?

Thanks again for taking this course, I really enjoyed it – hope you did so as well!
